It was noted that in 2017 the Atyrau Oblast Akimat excluded this project from the list of projects implemented as part of Egilik social program. However, recently the sports centre construction project was re-incorporated to the program. Currently the documentation required for sports centre construction is being prepared.

Then the Q&A Session started.

Pensioner: There is a difference in wages of Chevron and Contractor employees.

R. Artygaliev (TCO): The issue related to Contractors' wages is beyond TCO competence since they are separate legal entities.

Pensioner: Are there any residents of Zhylyoi District among employees?

R. Artygaliev (TCO): Yes. However, please remember that employment peak period on the project falls within 2019-2020. Personnel reduction is anticipated after this period. We are working

in this direction in cooperation with the relevant state authorities. It is expected that there will be about 600 permanent jobs in TCO Base Business after completion of FGP-WPMP construction.

Pensioner: I kindly ask you to assist with employment of my grandson. His occupation is electrician, driller. He has work experience.

K. Joldasbayev (TCO): It is necessary to register on ENBEK.KZ web-portal, monitor the job openings and apply for suitable jobs to get employed on FGP-WPMP project. Project Contractors post open vacancies on this portal. The web-portal owner is the RoK Ministry of Labour and Social Protection of Population. Please invite your grandson right now and I will explain him how to register on the web-portal.

Question: You have built a kindergarten and will construct a sports centre soon. Will the assistance provided to local communities be stopped after that or TCO will continue allocation of funds for social projects?

R. Artygaliev (TCO): There are two social investment programs in TCO: Egilik Social Infrastructure Development Program and TCO Community Investments Program. Earlier TCO had a small and medium business financing program but this program was closed since TCO is not a financial institution. As part of community investments program TCO is implementing the Zharkyra Social Entrepreneurship Development Program in cooperation with Eurasia Foundation of Central Asia. You can propose your projects for implementation as part of this program. We will recommend Eurasia Foundation of Central Asia to deliver an overview presentation on this program for Zhylyoi District community.

Question: You are kindly requested to include the targeted assistance for residents into the social investment program.

R. Artygaliev (TCO): Consideration of such program for each district is within the Akimat's competence. If the Akimat develops a program package, it can be further reviewed, we determine the scope that can be executed as part of TCO social program and the scope that will be executed by Akimat for budget funds. We will communicate the issues raised by population to Atyrau Oblast Akimat.

A. Toremuratov: I kindly ask TCO to assist with construction of a race course near the village.

R. Artygaliev (TCO): You need to address this request to Atyrau Oblast Akimat to include the race course construction to Egilik Social Infrastructure Development Program. We will also communicate your request to Atyrau Oblast Akimat.
